Consumers Making Energy Efficiency Upgrades Expect Trusted Financing

It's a major purchase, often unexpected. For many it's too big for generic or promotional "financing".

What drives customer "off the fence" for better energy upgrades?

KEEP Home Energy Loan – Overview

- Pennsylvanians can “Go Greener, Affordably” with fixed monthly payment financing for improvements that make homes more energy efficient.
- Eligible improvements include ENERGY STAR® rated measures such as heating and cooling, windows, doors, air sealing and insulation and other energy-saving improvements (qualification certified by contractor).
- Work must be performed by NEIF-Approved contractors who have been vetted for financial stability and ethical business practices.
- Approximately \$10 million in available funding for first phase.
- Supported by the Pennsylvania Energy Development Authority (PEDA)’s Energy Accelerator Program.
- Administered by NEIF, the National Energy Improvement Fund, a Certified B Corp Pennsylvania energy efficiency lender.
- 100% financing available, instant credit decisions, easy paperless process and responsive communication with you and your contractor.

KEEP Home Energy Loan – Rates and Terms

- Unsecured installment loan
- 3, 5, and 10 Year Terms
- **Maximum project size \$25,000**
- Loan amounts from \$2,500 to \$25,000, depending on borrower’s credit
- 8.99% fixed rate
(current rate as of April 2024)
 - Rate is locked in for full term when loan is made
- No penalty for pre-payment
- No consumer fees
- **No contractor fees**

Contractor Certification of Eligible Improvement

- The qualifying improvements (make and model number) must be listed at <https://www.energystar.gov/products>
- Use the “Product Finder” to ensure that the improvement you are installing qualifies as ENERGY STAR.
- The contractor must self-certify that the improvements qualify when they sign the completion certificate. This is a qualification for funding. Installations may be subject to quality assurance verification.
- Non-qualifying improvements and larger projects may be eligible for NEIF’s standard EnergyPlus financing.

The screenshot displays the ENERGY STAR Product Finder interface. At the top, there is a navigation bar with the ENERGY STAR logo, a search bar, and links for 'ABOUT', 'FOR PARTNERS', 'Find Products', 'Save At Home', 'New Homes', 'Commercial Buildings', and 'Industrial Plants'. Below the navigation, a breadcrumb trail reads 'Home > Energy Efficient Products > Product Finder > ENERGY STAR Certified Boilers'. A language selector shows 'English | Français' and a link for 'Access to ENERGY STAR API, Data Set or Excel File'.

The main content area is titled 'Find and Compare' and features a 'Change Product' button. A featured section for 'ENERGY STAR Certified Boilers' includes a boiler image and a call to action: 'Visit the Boilers page for usage tips and buying guidelines.' To the right, a family photo is accompanied by the text 'Together we can create a healthier planet for all of us.' and a 'LEARN MORE' button.

Below this, a search results section shows '679 Records Found' and 'Filter Your Results' options. The filters include 'Filter by keyword', 'Fuel Type' (Natural Gas: 504, Propane: 484, Oil: 142, Do not filter), 'Brand Name' (A. O. Smith: 3, Advanced Thermal Hydraulics: 1, Baxi: 6, BIASI: 7, Bosch: 16, Bradford White: 14, Bryant: 4, Show more), 'Efficiency (AFUE)' (less than 87: 0, 87 ≤ AFUE < 90: 140, 90 ≤ AFUE < 92: 52, 92 ≤ AFUE < 95: 39, AFUE ≥ 95: 455), and 'Can Integrate Hot Water Heating' (No: 363, Yes: 323).

The results are sorted by 'Efficiency (AFUE)'. A highlighted section for 'Rebates in your zip code: 18103' shows a '30% of cost up to \$600' rebate, valid from 01/01/2023 to 12/31/2023. It includes a 'Tax Credit' section for the Federal Government and a 'Visit website to learn more' button. A 'SHOW ALL REBATES' button is also present.

The product list includes:

- Energy Kinetics - Accel CS EK1C 90**: Fuel Type: Natural Gas/Propane Gas, Efficiency (AFUE): 97. Includes a 'CLICK FOR PRODUCT DETAILS' button and a 'Compare' link.
- HTP - EFTU-85WBN**: Fuel Type: Natural Gas/Propane Gas, Efficiency (AFUE): 96. Includes a 'CLICK FOR PRODUCT DETAILS' button and a 'Compare' link.
- Radiant - R2KA 34/20**: Fuel Type: Natural Gas/Propane Gas, Efficiency (AFUE): 96. Includes a 'CLICK FOR PRODUCT DETAILS' button and a 'Compare' link.

KEEP Home Energy Loan – Simple Process

1

"Know Before You Go" Credit Pre-Screen and Easy Application

- You can credit pre-qualify your customer with just a name and address - know before you go!
- Won't impact customer credit.
- To have your customer apply give them monthly payment options and use your company's custom NEIF Financing Gateway on your phone, tablet or website.

2

Instant Credit Decision. We Take Care of the Details

- Your customer will receive an immediate credit decision and you can view it instantly on your NEIF Contractor Portal.
- We will also email you and your customer.
- Upload a picture or PDF of customer contract or proposal to their NEIF Contractor Portal as soon as possible. **Must show manufacturer and model number of qualifying improvements.**
- Our Energy Lending Specialists assist the customer and contractor to expedite final approval and funding

3

Fast Contractor Funding

- Electronic loan docs are sent directly to the customer upon final approval, typically as soon as the contractor's proposal has been uploaded.
- Contractor can review the status of customer applications at any time by logging into their portal.
- Customer and contractor electronically sign off on job completion.
- **Contractor must certify that the qualifying primary improvements are listed at energystar.gov/products**
- NEIF funds contractor directly via ACH within 2 business days.

Questions? Need Training?

Go Greener. Affordably.

The National Energy Improvement Fund, LLC (NEIF) is the nation's only Certified B Corp™ lender specializing in improvements that make homes and buildings stronger and more energy-efficient.

**FOCUSED ON AFFORDABILITY OF
ESSENTIAL ENERGY IMPROVEMENTS**

FOCUSED ON AFFORDABILITY OF ESSENTIAL ENERGY IMPROVEMENTS

NEIF'S RAPID GROWTH IN FINANCING OF ESSENTIAL RESIDENTIAL & COMMERCIAL EFFICIENCY PROJECTS

Affordability is the greatest impediment to the adoption of home and building energy efficiency upgrades. They are expensive and often unexpected. Rebates only cover a small portion of the cost and traditional financing is typically short term "teaser" rates, high cost to contractor or a cumbersome loan process. NEIF is focused on improving the delivery channel, increasing affordability and aiding contractor cash flow.

ESSENTIAL ENERGY UPGRADES & ELECTRIFICATION ARE ATTAINABLE AND CAN DRIVE THE MARKET

Core upgrades - heating and cooling (HVAC), insulation, roofing, lighting - are what drives most demand. Electrification (heat pumps, generators, storage) is becoming a dominant trend. While solar is an option for some, NEIF focuses on working with contractors, utilities, distributors, and state "green banks" to increase the uptake of core improvements. In 2023, 88% of financed home improvements were for HVAC and electrification.

PROGRAM AND MARKET-BASED FAIR, EFFICIENT & COMPLIANT LENDING

WE MAKE ESSENTIAL ENERGY UPGRADES AFFORDABLE

As a benefit corporation (Certified B Corp), NEIF serves all income levels including low-moderate income borrowers, where access to affordable energy upgrades is vital. Low and moderate-income households accounted for 52% of all loans in 2023.

WE ARE EXPERTS IN UTILITY AND STATE PROGRAMS

NEIF administers financing programs for some of the nation's largest utilities for both commercial and residential customers and is actively working with states to implement “green banks” and upcoming federal funding such as IRA and infrastructure dollars.

WE SUPPORT SMALL BUSINESS & JOB DEVELOPMENT

NEIF currently supports over 1,700 contractors, the vast majority of which are small businesses. NEIF helps businesses grow by offering trusted, affordable customer financing, advance rebate funding to improve contractor cash flow and ongoing training and support on best-practices in energy efficiency business development.
